FLASHES!

The car tootling along outside Wolverhampton wasn't just another car, it had diesel engine. And as one gallon of petrol will run the 12-horse saloon 28-miles, one gallon of diesel fuel oil will take it 45-miles, ~~[illegible]~~ 17-~~[illegible]~~ more. The engine is a 2-cylinder 2-stroke. Its manufacturers think it may take the place of the petrol engine in a large section of private motoring. The smoke-objection to the ordinary diesel ~~has been~~ is being overcome. An official R.A.C. test measured the fuel used to verify the 45-to-the-gallon claim. Good luck to the experiment.

Earl Mountbatten, C-in-C Mediterranean, was visited by King Hussein of Jordan. His Majesty boarded H.M.S. Glasgow off Aqaba in the Red Sea. XXXX The young king transferred from the Glasgow to H.M.S. Surprise. When using this jackstay gadget it never pays to give your seat to a lady.

~~[illegible]~~ With the Admiral, Hussein witnessed a practise shoot.

~~King~~ Hussein, friendly with Britain, may inherit the mantle of King Abdullah, leadership of the Arab world.

The Scorpion all-weather fighter has been assigned to American squadrons in Alaska. The aircraft is a rocket-firer, claiming 600-miles-an-hour with a range of 2,000. It's designed to ward off enemy atom bomb carriers. These first publicly-shown pictures reveal a new fighting power in the air.
