

GARIBALDI TALK.

1. SEMI VIEW... I am very sorry not to be able to talk to you with a more clear voice, but unfortunately I got a bullet in the throat during the Great ~~WAR~~ European war, when I was fighting shoulder to shoulder with my comrades of France and England.
2. CU... I am a soldier and the son of a soldier. I know very well what my name means both in England and in Italy.
3. SEMI VIEW... Let me make a very clear statement. Italy cannot understand why the League of Nations has taken no steps in the Chinese-Japanese question, and has not interfered in the Chaco troubles.
4. CU... is today so strong against this Italian campaign in Abyssinia.
5. SEMI VIEW.... Italy needs the ground for expansion. She does not look to any adventurer and certainly she does not want war with the rest of the world.
6. CU..... ~~XXXXXXXXXXXX~~ talk to you of men that know the suffering of war, and I tell you there is no wish in our country to see such trouble thing come over again in Europe.
