S/V ..

"Local authorities are abusing their powers and are confiscating ~~some~~ property with just simply hasn't every modern amenity. What is a slum, if you inspect many thousands of houses what are being included in clearance up and down the country you will find that question as difficult to answer as Pilates question "What is ~~knockknock~~ truth" 41 ft.

C/U

"The Magna Charter, the great charter of English liberty by Article 40 said that nobody ~~whomsoever~~ will be denied or delayed right or justice, yet justice is being denied, it is the greatest betrayal of our splendid heritage of British Justice and fairplay recorded in modern history..... 40 ft.

INTERVIEW WITH LORD DONEGALL.

Semi-view Lord Donegall :-

"By airing the grievances of one or two victims of the Government Slum Clearance Scheme --- I seem to have started something that threatens to get out of hand --- as this correspondence shows."

Close-up Lord Donegall :-

"Old people are losing their life's savings and security --- as their own brick and mortar are brought down to dust about them."

Full close-up
Lord Donegall to
end story :-

"These cases of hardship to old people could never have been intended by the framers of the Housing Acts. There seems to be some lack of human charity in their enforcement. Suitable arbitration methods, surely, are needed".
