*Rita Blue*

We are hearing constantly how in China & Spain war planes overhead are raining death, injury and destruction on thousands of women and children, helpless and unprotected victims. God grant that our country shall ever be spared from such horror.

In the history of Gt. Britain women have never failed to carry out self-imposed duties, inspired by the realization of what this England is.

Many of your men-folk have already undertaken A.R.P. instructions. I feel confident that women will not hesitate to join the womens' voluntary services when enrolment in your region begins.
