Voice: Mellor.

Young Eagles of America ! They're going to fly under the Union Jack. Whether or not their own country comes into the war they have already joined in the fight. With the R.A.F. the Eagle Squadron will battle for freedom. It has been formed by Colonel Sweeney, leader of the famous Lafayette Squadron in the last war.

-

In Miles Masters aircraft they're completing training. One of them is Colonel Sweeney's nephew, Robert - there at the gun. Nearly all the men were experienced pilots before enlisting. The fighting side of the job is all they have to learn.

--  
--  
--

The Lafayette Squadron, forebears of these young Americans, brought down 199 Germans in the last war, with this war's opportunities the Eagle Squadron ought to make those figures look small.

In defence of liberty the vanguard of America is on the wing.

COLONEL SWEENEY SPEAKS

"The men who have come over to form this squadron are all experienced pilots. They will be worthy of their forebears. When the squadron is thoroughly trained it will go to the front with the RAF squadron.
