Maidens in Uniform are helping to win the war. They work in office and kitchen, so men who used to cook bully stew for the troops can now cook the enemy's goose.

Take a letter ! Dear Mussolini -.....

Some of the girls are waiters in the officers' mess, and at this camp their own officers dine there as well.

My dear, when they filmed us at dinner I just burst out laughing. It's compulsory to attend the health and beauty class, and besides the drill there are all kinds of games, outdoor and in.

At A.T.S. dances there are two men to each girl, so hurry up and join.

Reveille next morning ! You can't order a girl to show a leg, so getting up seems to be a leisurely affair. Tell the General I'll be a quarter of an hour, I'm smoking a gasper.

The Medical Officer has a look at the sick ... Now cough.

They wash their own smalls and when there are cameramen about they wash with their blouses on.

Kit inspection ! The time when a girl must have two of everything, and nothing you can pick holes in.

The girls are on parade. They don't mind a little fun being poked at them. They're doing a fine job - helping the country when help is most wanted.
