- 12. Pres. talking:

"We have seen the American motion picture become foremost in the world. We have seen it reflect our civilization throughout the rest of the world the aims and aspirations and ideals of a free people and of freedom itself. That is the real reason that some Government's do not want our American films exhibited in their countries. Dictators... those who enforce the totalitarian form of government, think it a dangerous thing for their unfortunate people to know that in our democracy, officers of the government are the servants, never the masters of the people."
