This story was covered in collaboration with the national reel and Government wanted to keep our negative. We in exchange have asked the national reel to record a speech from the Admiral. This speech was made specially for Paramount and Metro.

Admiral Leahy came to Marseille for the arrival of the American freighter Knouth to make the symbolic gesture of giving American food to France for the little boy and girls. He was greeted at the port by the prefect of Marseille Mr. Vigie. After Admiral went on board the ship he departed to Toulon where he was received by Admiral Marquis and Mr. Labylone prefect of the Department. Everywhere the Admiral was cheered by thousands of kids who shouted Vive l' Amerique.
