LORD AND LADY HALIFAX AT LOCKHEED FACTORY

Burbank, Calif.

HAND CAMERA ROLL #1

This roll shows Lord and Lady Halifax inspecting the 1000th, "Bataan Bomber" looking into it - posing with it - starting for speakers' stand, etc.

HAND CAMERA ROLL #2

Shows various crowd shots - listening to and cheering Lord Halifax. Then into shots of Pilot Jimmy Mattern as he enters the plane (this angle is exclusive) then waving to camera and closing window.

SOUND CAMERA (shooting silent) ROLL #1 - 245 feet.

This roll shows Lord Halifax being introduced and stepping up to the microphone - then into various shots of him - with different lenses - as he speaks. Also shots of the estimated 25,000 Lockheed employees who had gathered to listen to him.

SOUND CAMERA (shooting silent) ROLL #2 - 180 feet.

This roll shows more of the speaker (Halifax) and the crowd - then into shots of Lady Halifax as she speaks briefly - and a flash of the 1000th, bomber as it takes off behind the crowd - then flashes past.

This roll then ends with a staging of the take-off - which we could not make while the program was being carried out.
