

KIDS EVATUATION STORY

Ist Take N.G.

"I'm one of the London mothers who have taken their children home from the country where they were billeted. My eldest boy is 14 years of age has been in the habit just lately of coming home on a week end visits to me. He came a fortnight ago and whilst having his dinner I noticed that he kept ~~scratching~~ scratching his head. On looking ~~through~~ through it I found that he had vermin in it. Then he convinced me that ~~his younger brother~~ ~~probably~~ probably his younger brother had them also as they slept together in an attic. ~~Four other boys~~ also that his younger brother had boils and no one to attend to them but himself. Well I ~~brought~~ took him back to his billet the next day and told him ~~that~~ to tell his lady that I was coming to fetch them home on Thursday. When I got to their station on Thursday I found the two boys on the station with all their luggage packed up and was even given the chance of an interview with the lady they were billeted with or the billeting officer or the school master. So I fetched them back and am now doing my best to get the boys clean. And if things should come bad again in London I will would like the privilege of sending my younger boys not the older boy away to the country again providing he got a good billet.

SV ANOTHER WOMAN TALKING:

"I have three children evacuated and I am very glad that they are away. I would love to have them with me but they are in very good billets and being very well looked after. They have been away now since June of last year and have taken a great anxiety off my mind to know that they are well looked after."

CU SAME WOMAN TALKING:

"As I said I would like to have my children with me but as the circumstances are at present I know they are much safer where they are and I am waiting ~~for~~ for the time when I can have them back again.

SV AFS MAN TALKING:

"If you could only have seen some of the things we saw last winter you would keep them well out of the way until the war finishes."
