

BEATEN GERMANS DISPOIL RUSSIA

The enemy is burning and destroying on a scale never witnessed before in military history as he retreats on the Eastern Front. These revealing pictures are from a German newsreel recently captured.

Operations filmed here took place months ago, when the Germans still fought on Russian soil. ~~The pictures were shown to the German people that they might gloat over the enormous destruction inflicted on the country which first resisted conquest and then drove the enemy back to his own soil.~~

It will not be long before the bestial ~~people and~~ ~~lashed their~~ ~~feel~~ in their own towns and countryside the all-devouring flames of Allied fire.
