Ex King Carol of Rumania called at Rio De Janeiro

on his way from Mexico. He was accompanied by the rarely photographed but much discussed ^{Mrs.} ~~King~~ Lupescu.

We have no confirmation that he is returning to Europe.

U.S. coast guard cutters thrust ^{7 blasted} into ~~the~~ an icefield only a few hundred miles from the north pole to attack a German weather station in Greenland.

Germans had established ~~weather~~ ^{meteorological} stations on Greenland, from which they radioed weather reports ^{to home} ~~the Fatherland~~. Their stores showed they expected 60 in number, a long stay without interruption. The Germans/were taken prisoner. ~~One more attempt of~~ ^{gain} the Nazis ~~had~~ ^{made} to ~~gain~~ much needed weather reports was foiled.
