He says, "I knew there would be people killed and injured, so I went into the drug store on the 34th Street side and asked a man there for a first aid kit--~~some~~ morphine and anything else, and he said, 'Take anything you want!'"

"So I got my supplies under one arm and started walking out towards the elevator. A couple of firemen had gotten there by now, and we heard the elevator fall from the 78th floor; we heard people screaming inside it, so we went down to the sub basement. They chopped a hole in the wall and I crawled thru--and there was a girl in there badly crushed and burned, and I got her out and gave her morphine and treated her wounds as best as I knew how. A Jewish rabbi and a Catholic Priest were there, and they were really swell the way they helped."

48. SCU Moloney talking--he says,

"And there were five women in one office very badly burned. They had been on the 79th and 78th floor. I gave them morphine and

dressed their burns and carried them down to the 67th floor where the elevators were running."

"I'm glad I was there, and I'm glad I was able to be of service. The training the Coast Guard has given me has really been a lot of help. They taught me what to do in emergencies and how to do it. It really came in at the right time yesterday. I am glad I was able to help."
