

Shore Leave for 'Lizzie.

Though her crew has been ashore with regularity the Queen Elizabeth herself leaves the water for an all round breath of English air for the first time since her launching, berthing in Southampton's giant graving dock for a few days overhaul.

If scrubbing brushes had been needed we could'nt have tackled the job.

'Lizzie, as she is affectionately termed by the thousands of fighting men she has carried safely thru' sub. and mine infested waters, has a record to be proud of.

From the giant screws and the mighty engines which drive them, to the last rivet in a hull which has shuddered to the shock of countless depth charges, Lizzie is a credit to the shipyards. When better ships are built, Britain will build them.

SHORT LEAVE FOR 'LIZZIE'

* Though her crew has been ashore with regularity the Queen Elizabeth herself leaves the water for an all round breath of English air for the first time since her launching, berthing in Southampton's giant graving dock for a few day's overhaul.

* If scrubbing brushes had been needed we couldn't have tackled the job.

* 'Lizzie' as she is affectionately termed by the thousands of fighting men she has carried safely thru sub. and mine infested waters, has a record to be proud of.

* From the giant screws and the mighty engines which drive them, to the last rivet in a hull which has shuddered to the shock of ~~countless~~ ^{innumerable} depth charges, Lizzie is a credit to the shipyards. When better ships are built, Britain will build them.
