

CITY FETES UNO CHIEFS.

At Guildhall with the traditional ceremonial of the City of London, delegates to the United Nations ~~general~~ ~~assembly~~ were entertained by the Lord Mayor <sup>and</sup> Corporation.

Following the custom of State Banquets in the city the 'Loving Cup' was circulated, <sup>by the Lord Mayor.</sup> ~~Mr. Spaak took it~~ *z it fit guest 2 drink of it* ~~from the Lord Mayor....~~ Herbert Morrison did justice to the occasion. The newly appointed Secretary General of UNO was next on the list. The exact mixture in the 'Loving Cup' is a carefully guarded trade secret. It is spiced wine and everybody drinking it for the first time pronounced it excellent. The fates were against Ernest Bevin.

There were no Russian delegates <sup>present</sup> ~~who accepted the~~ ~~invitation~~. Senator Connolly, sat next to Lord Jowitt. The Emir of Saudi Arabia apparently enjoyed himself and Mr. Bevin for the time being forgot that there were such places as Greece and Indonesia. As becomes a Prime Minister in these difficult times Mr. Attlee was deep in thought.
