COMPLETE DESCRIPTION OF SCENES.

This visit was spoiled by the CIGS departing from programme at most places.

ROLL ONE Arrival at No.1.P.D.C.(Physical Development Centre). Here Monty was shown men doing p.t.etc, they are all recruits who are underweight or suffering from some slight defects which can be remedied by the course and are then graded A.1. Various scenes of men doing exercises etc.

ROLL TWO. Opens with signboard for above camp. Here are a couple of shots of Monty whilst looking at an Army hut converted to married quarters.(interiors terrible and not worth lighting). VISIT TO No.205 and No.211 Royal Artillery Training Regts. These were on adjacent parade grounds and identical, so only shot one. Starts with a shot of Monty entering barrackroom. Not light enough to shoot and no juice connected! Official story "Its during economy hours"!!!! Shows various scenes of men on AA guns and working predictors. Monty takes great interest and peers through predictor himself. Jamming experienced and so cut roll.

ROLL THREE. Starts with unit sign for previous shooting. Monty inspecting men of West Midland and North West No.2. I.T.C. This mag jammed here and so missed the parade -- such as it was. Very ragged and even Monty scowled as one Company Commander gave "Eyes Left" instead of "Eyes Right"!!

Movietone covered the inspection of a short guard ceremony at Chester Castle and the handing over of a locomotive to the Cheshire Regt in Monty's presence. They looked at some other locations and did not even get cameras out!! Whole trip very unsatisfactory indeed.
