

PARIS REVIVES HISTORIC FAIR

Contributing to the rapidly recovering gaiety of the French capital the famous Fair of the Throne was held in the Place de la Nation, after a lapse of some years.

The Cirque Fanni, Sanger Circus of France, was the center of the fun. The Fair of the Throne was first held in 1660 to celebrate the triumphal entry into Paris of 21-year-old Louis the Fourteenth with his bride Maria Theresa.

Now it's the opportunity of snake charmers and all the other attractions that make up the fun of the fair. The love thermometer measures your glamour to a T. As if the boy friend hadn't measured it already.
