SCENE NUMBER

COMPLETE DESCRIPTION OF SCENES.

I made this a series of travelling shots, because the light is not good, people look at the camera, elevation shows the top of stands which do not make a picture. The fair covers an area of 16 acres, in most cases the stands are static so I thought the moving shot may give a little movement to the picture.

In the main heavy industries are represented.

Exteriors of the Exhibition entrance, and a shot in four languages of a notice showing the desire to assist foreign buyers.

I did no close ups of exhibits as lights would have been needed, tried rather to give a general impression of the exhibition.

WHICH OTHER SOUND NEWS REELS COVERED STORY.....

Universal as far as I know.
