STILL OUT FOR  
THAT WORLD  
RECORD

**BRIDGE BIRCH** ~~II~~ who  
beat, unofficially, the  
world's milk-yield record for  
cows, has not, after all,  
beaten it officially.

On Monday she yielded  
155½lb. (15½ gallons) in 24  
hours. The world record is  
140lb. So an official test was  
arranged.

But B.B. II stopped before the  
test ended, through milk strain.  
At Moortown Farm, Ringwood,  
Hants, last night, however, she  
was well enough to pose for this  
picture, and she may feel fit for  
an official attempt later this  
week.
