

SENORA PERON (NOT COMING HERE) VISITS PARIS

By air from Lishon to Le Bourget came the much discussed Senora Peron, wife of the Fascist ruler of Argentina. She was met by Foreign Minister Bidault. The glamorous former film actress is not the guest of the French Government but is being entertained as befits her station. She is using Laval's bullet proof car and is in Paris to buy clothes. The Senora already has trunk-loads of Paris models and when she goes back will have trunk-loads more.
