

QUEER CATS HIT HEADLINES

foster-
A Michigan cat has surprised everybody by being mother to five skunks. Their own mother died, so Fluffy took over the rationing problem. Mother and babies are all doing very nicely thank you. The family terrier, a bit jealous, tried to make friends himself. Nobody'd told him that confidentially ~~skunks~~ ^{they} don't smell very nice. The cat took her charges out of harm's way. She wants to get in on the ground floor for a new fur coat.

Cat Number Two. In Kentucky there's a kitten with a passion for that unusual feline diet, corn on the cob. She's been offered meat, mice and milk, but when she can get it she goes for corn in a big way. She's not happy unless they give her a cob a day.

And so we say farewell to Suzie, America's only corniverous cat.

1. TITLE: KITTEN ON THE KERNELS!
2. Herbert Schein of Kentucky introduces....Suzie, the kibitzer!
Suzie just loves Kentucky kernels - on the cob! She says,
"What's the sense being a Kentucky kitten if you don't go for
Kentucky corn?" But Dr. Schein and Suzie want you to know
this is no corny trick. Nobody taught here. Suzie just moved in one
day - and she's been a confirmed corn addict ever since!
7. Suzie eats a cob a day - and never forgets her manners! So, now,
to Kentucky's famous boast as the state of beautiful women, fast
horses, and good whiskey - add one more charm - oops, pardon me!
- add Suzie, the corn-eating kitten!
