

Jamboree.

Scene 1

The flags of forty nations are unfurled in France and in a salute which is a symbol of youth comradeship and high ideals, Scouts of all creeds and colour hail their Sixth World Jamboree.

Scene 8.

For many of them the journey has been long; from New Zealand, South Africa, Arabia, ..even the far off Philippines. For others, ~~the journey has been hard~~ hampered by physical disabilities, the journey has been hard. Only a spirit which will not admit defeat, and a certain faith in the help of their comrades, has carried these Scouts to the Camp.

(Sc 14)

From the outset the Jamboree goes ahead in a swing of good fellowship..and in an atmosphere dear to the heart of every self reliant boy, barriers of language are quickly broken down.

Sc 18.

While the people of France have the good fortune to be hosts to this Assembly, Britain can take pride as Founder through the vision of that Great Scout, Sir Robert Baden Powell.
