

Mechanics raise the body of the Railton-Mobid-Special

which is to attack the worlds land speed record of

~~and~~ Speed wizard John

three seventy miles an hour. ~~John Cobb the famous racing~~

Cobb climbs into what's left for him after the twin

Napier Aero engines have had their share. Not much room

for a big man with ideas of 400 miles an hour across the

floor of a salt lake.

CU Cobb) Cobb knows what he's about. He's been on Utah's

natural racing road before. Good luck, John ! Mind the salt
glare.
