NEWS FLASHES STOP PRESS:

(1) Model Engineer Exhibition.

At the Royal Horticultural Hall, Westminster, the twenty-second Model-Engineer Exhibition opens up a new world to boys between ~~six and sixty~~.

8 All the models work.. and all of them demonstrate the remarkable talent for fine craftsmanship which is to be found among the model-engineers of this country. In the miniature town, the traffic is perfectly ordered, and the timing so good that an accident is quite impossible.

" 14 Accidents might be expected in the more spectacular demonstrations.. but ~~they~~ the submarine takes its bombing like a good model! and comes up for more, with regularity.

" 19 As for the racing-cars. Don't let the start-with-a-piece-of-string mislead you.— This one reaches a speed of over fifty miles an hour.
