	<p>After many disappointing delays and unsuccessful trial runs, John Cobb noted English speed demon and present land speed record holder finally breaks his own record of 368.9 MPH set in 1939 and today just before dark set a new record of 394.196 MPH for one mile and 393.875 MPH for one kilometer.</p> <p>To set this record it was necessary for Mr. Cobb to make two runs, the first being from north south and the second from south to north. The average times of both runs is the time established as the new record. Running southward Cobb covered the mile in 9.34 seconds for a speed of 385.645 MPH. Made the kilometer in 5.77 seconds for a speed of 388.019. On the return northward run after servicing the car, Mr. Cobb covered the mile in 9.1325 seconds for a speed of 403.135 MPH. He was blocked thru the kilometer in 5.860 seconds for a speed of 399.808 MPH. The new world record is 394.196 MPH for one mile. (Records are subject to final approval by the record governing body in Paris but this is regarded as merely routine as these speeds have been timed and certified by officials of the "AAA" contest board.</p> <p>Scenes are follow shots of the RAILTON MOBILE SPECIAL speeding thru the measured mile on its southward run making a speed of 385.645 MPH.</p> <p>Side follow shot of Cobb's car speeding on northward run at a speed of 403.135 MPH.</p> <p>Shots of Cobbs car after completion of runs turning into the "Victory Lane" where he is to be informed of his new record, shots of Cobb and crowd, shots of Cobb stepping out of crowd, greeting wife, etc.</p> <p>Air shots - All scenes from air showing Cobb's one run, shot at pit after run, shots around time stand and parking area of crowds etc. Air shots of run was through the measured mile.</p>			

INSTRUCTIONS: SEND IN BOTH THE ORIGINAL AND DUPLICATE IN CAN WITH THE NEGATIVE.
