

OFF TO MONTE CARLO IN THE MORNING

30
A Jaguar destined to crash in France checked in at Llandrindod Wells. Next came a Healey and a long succession of fast cars. They'd all started in Glasgow for the Monte Carlo Rally, the sporting and increasingly popular race. Time and the icy conditions always met on some part of the run make a challenge motorists love to accept. The three drivers of the crashed Jaguar, Heath, Boshier (badly injured) and Bradnack, all seen here, are now in hospital. One interesting entry was the Holden, made in Australia by General Motors. There was no time to be ~~wasted~~^{WASTED} at Llandrindod Wells. They all had to embark at Dover next morning, ~~and had check in there the night before.~~ Mrs. Joe Ashfield, Julia Slatter, and Lorna Snow drove a Sunbeam Talbot. At dawn the cars went on board the ~~ferry~~^{LORD WARDEN} - off to Monte Carlo in the morning.
