

MONTE CARLO RALLY

2  
Scene 1 - 7

Monte Carlo in the winter sunshine is the mecca of the four-hundred-and-four Rally teams which set out from all over Europe, and the event culminates in the speed and regularity tests held over a twisting mountain road overlooking the principality.

" 7 - 36

In this twenty-third Monte Carlo Rally, 253 cars arrived without penalty and again, of these, 101 survived the braking and acceleration tests.

" 10 - 57

It was from these ~~cars~~ that the winners finally emerged, and British cars finished in first, second and fifth places - with France taking third and fourth, a great triumph for British engineering and a fresh impetus for our export trade.
