

Ch Stegg

G. 1361-

WITH THE COMPLIMENTS OF THE  
CHIEF OF NAVAL INFORMATION.

You will have seen in the Press to-day the first photographs of BOLD PIONEER, one of the new Fast Patrol Boats which are powered by gas turbine engines and which are now in service with the Royal Navy. A length of 35 m.m. film, about 400 feet, of the trials of this boat at speed has been received and the negative is now with Studio Film Laboratories, 71, Dean Street, W.1., under reference A.E.W.253. The Laboratories are authorised to accept your order for the supply of duping material should you require it.

Admiralty handout dated 6th November, 1952, gave details of the boats.

For any further information please telephone  
Whitehall 9000 ext. 789.

23rd January, 1953.
