

INFANTRY GET WORLD'S BEST WEAPONS

- That ^F the Ackpan ^{CK} flame thrower.

3
Now for the anti-tank grenade, far more powerful than anything of the sort in the last war. And it is fired from the ordinary rifle. A well-aimed shot would disable the 51-ton Stalin tank, biggest in the world. The rocket-launcher, designed in America, now in full production over here, has no recoil. ~~It is very light.~~ ^{Though} firing a 3.5 rocket it is very light. It practically turns two men into an artillery field gun. Taking it all round the old foot-slogger won't know himself when the army is fully re-equipped.

The Patchett machine-carbine replaces the ~~Sten~~ ^{Sten} gun and is in every way better. British infantry will ^{soon} be the best armed in the world.
