

DUKE OF EDINBURGH FLYING - FLASH

30

When the Duke of Edinburgh flew a Harvard trainer it must have been the first time the 5 star insignia of Marshal of the Royal Airforce ^{d ever} appeared on a training aircraft. His Royal Highness was ~~making~~ making his last three solo flights ~~g~~ before getting his wings. After an AI take off he flew from this airfield near Maidenhead over Windsor Castle.

The Duke has completed 100 hours flying since he began training in November. The present performance was judged very good and at Buckingham Palace later His Royal Highness received his R.A.F. wings.

THE PROPOSAL IS BASED ON FOUR LINES OF ACTION WHICH... WHICH WOULD BE DETERMINING TO THE COMMISSION... HE HAS SAID HE BELIEVES DID NOT CONSIDERABLE AND MEASURES...
