

## SPORTS CAR SETS WORLD RECORD

Stripped of hood and other trimmings a standard 2-and-a-half-  
litre <sup>5pcc 4</sup> Triumph, with motoring tycoon Sir John Black there to  
see, set new records at ~~Wimborne~~ Ostend,  
whose Jabbeke road is made  
for the job. Ken Richardson was at the wheel. The former  
B.R.M. driver attacked the flying kilometer and flying mile  
records. The importance of this official attempt  
was that it was made by a ~~standard~~ sports model, not a racing  
job.

The average of the two runs for the mile was given at  
124-miles-an-hour. Great driving, great car.
