

RHODES EXHIBITION

In Bulawayo, Southern Rhodesia, has opened the Central African Rhodes Centenary Exhibition. It will shortly be visited by the Queen Mother and Princess Margaret,

The Leopard Rock Hotel who will stay at which enjoys a heavenly situation facing the Chimanimani Mountains.

The Leopard Rock is the name of the mountain behind the hotel. 5000 feet above sea-level the country hereabouts has an almost perfect climate, mild in winter

(it is their winter now) and never impossibly hot in summer. Lest you think we're tempting you to have a return

holiday there, forget it, the ~~xxxx~~ fare's 300 pounds, and lots of the attractions are obtainable at home.
