M/ EDEN HOME, PREMIER, TO CHEQUERS

From his Kentish home at Chartwell the Prime Minister, much better after his month's rest, drove to Chequers to continue convalescence. No pictures are ever allowed there.

All wish the P.M. speedy recovery. Meanwhile at London Airport arrived Mr. and Mrs. Anthony Eden, the Foreign Secretary returning from America, where he recently underwent a serious operation. And glad we are to see him back home. Naturally, after three operations (he underwent two here before going to the United States) Mr. Eden still has some weeks ahead ~~before~~ before he'll be fit to resume duty.

Speech indistinct in places, and couldn't grasp

"It is grand to be home again after so long an absence, and the surgeon who operated on me told me yesterday that all was well but that I would have to have a further period of convalescence to put on some weight but there was nothing else to worry about.

Well, I only want to add this to you this morning..... in the United States, my wife and I, and we have been treated with the utmost kindness by everybody, and I am quite sure that for many of us who welcome.....

this is just a way of expressing their token of friendship for this country. You would have been thrilled if you could have heard some of the tributes that we heard on the Coronation.....just shows there is an underlying goodwill there as I am sure there is here. And it is immensely important because of course we shall have difficulties and differences in politics from time to time, but if their goodwill exists we can overcome it, especially when we disagree we can each give the other credit. If we do that all will yet be well, and we shall have what we all want - lasting peace.

It is grand to be back, I look forward to be back at work again as soon as the doctors will let me, but I am afraid there are some weeks I must wait yet. Thank you very much, everybody."
