

## SHREWSBURY OPENS FLORAL FETE

30  
A lot of people and the flowers that bloom in the summer had a very wet day for it at the opening of Shrewsbury's Musical and Floral Fete. It claims to be the most important show of its kind in the country. Certainly growers from every part that can produce flowers fine enough for ~~them~~ a queen covet the trophies and the added reputation that goes with prizes gained at Shrewsbury. Vegetables have a place in the scheme. If tired of vegetating, visitors can watch the side shows, the Stey Family, for example. Only a wire between them and the end of their stay on earth.

Duncan's Collies are another top circus act having a day or two in the country.

Have you ever seen a dog driving, 'cause we have. And even we don't quite believe our eyes; ~~oh, and?~~... They prefer main roads, ~~with~~ telegraph poles at decent intervals.
