SCENE NUMBER

COMPLETE DESCRIPTION OF SCENES

As asked for I covered the ceremony in the morning of the unveiling by the Duke of Richmond, of a small portion of the original Brooklands motor track that is now being broken up... and afterwards in front of this memorial, a group of Brooklands drivers with a close up of the Duke of Richmond, who also drove there...perhaps a shot from the library of Brooklands would help...shots of the Jaguar's in the pits and 3 Aster Martin cars leaving

Roll 2 ..starts off with the old drivers..shots at the pits and two shots of Stirling fancied to win...the start and shots on the straight

Roll three..

Various shots at Paddock Bend, various shots from different angles etc

Roll 4..

Various shots at the pits such as petrol tyres etc etc

Roll 5..4in pans on cars coming from the straight onto the first bend...then various shots at St Mary's bend and away from the camera..a couple of shots of cars running into the setting sun..

The last roll on H.P.3. night scenes and the winning cars being flagged in, and a free fight around the winners, everybody completely out of hand..just when I might have been able to get another shot of the winners, the race track engineer switched off their generator.

18 cars packed up during the race which was won by Reg Parnell and co driverE Thompson..297 laps..710 miles at an average of 78.94 miles per hour. Most cars that completed the trial used 3 sets of tyres and anything between 30 & 50 galls of gas.

Programme attached.
