FLASHES!

In his Hawker Hunter, Squadron Leader Neville Duke broke fine for another record,/the 100-kilometre closed circuit.

Over the 62-mile course Duke hit up 709.2 miles-an-hour—

19 faster than the speed attained

by an American Sabre Jet on September 1st.

Another triumph for the world's fastest filter.

Not all air thrills depend on jets.

Germany's best acrobatic troups were the star outdoor

attraction at the Oberhausen Festival in the Ruhr.

Now, how to keep a cool head on the high swaying pole.

This is a fairly simple trick if you're that sure-footed you'd make a mountain goat look awkward.
