

~~Motor manufacturers~~

Motor manufacturers meet the high price of petrol half way. The Austin 7 and its rivals put the accent this year on the small car and very attractive the new models are.

The Standard 8 has already made its bow, but not till now ~~the~~ the Ford Popular, which, if it doesn't steal the show, has a good try. It becomes the cheapest car 4-cylinder in the world. The Morris Minor ~~has~~ has the commercial traveller in mind - plenty of room for his samples.

30

Here with a plastic body is the Singer, everything very accessible if you're not in a crowd.

The rear-engined Renault has its own ingenious plan for getting at the works, but make sure everything's all there before you set out.

The prototype Super Ford, millionaires' car of tomorrow, is so complete you could almost live in it. One of the gadgets means that you can ~~have~~ have a close shave without nearly hitting somebody. ~~else~~ If you've any excuses to make to anybody there's the phone. The merest spot of rain ~~and~~ and automatically everything's closed up.

~~Sir Edmund and Lady Hillary~~

Sir Edmund and Lady Hillary sampled the Rover 75.

Next time no need to walk up Everest.
