ISTRATION SEEMS NOW TO BE FIRMLY ISHEALT ED AND THE DESIGNATION

The car tootling/outside Wolverhampton wasn't just another car, it had diesel engine. And as one gallon of petrol will run the 12-horse saloon 28-miles, one gallon of diesel fuel oil will take it 45-miles, and make 17-miles more. The engine is a 2-cylinder 2-stroke. Its manufacturers think it may take the place of the TITEMOS petrol engine in a large section of private motoring. The smoke-objection to the ordinary diesel he overcome. An official R.A.C. test measured the fuel used to verify the 45-to-the-gallon claim. Good luck INCREASED FROM ONE AND A HALF OUNCES TO to the experiment.
