The car tootling/outside Wolverhampton wasn't just another car, it had diesel engine. And as one gallon of petrol will run the 12-horse saloon 28-miles, one gallon of diesel fuel oil will take it 45-miles, and and 17-miles more. The engine is a 2-cylinder 2-stroke. Its manufacturers think it may take the place of the petrol engine in a large section of private motoring. The smoke-objection to the ordinary diesel h overcome. An official R.A.C. test measured the fuel used to verify the 45-to-the-gallon claim. Good luck INCREASED FROM ONE AND A HALF OUNCES TO TWO OUNCES A WEEK OF

TOP OF WORLD DUTY ASSICN ALL-WEATHER 'SCORPION' INTERCEPTOR TO ALASKA COMMAND.

The "Storpion", twin-jet F-36C all-weather interceptor, the Air Force's newest addition to the claskan air Command.

Armed with cannon, the latest radar, electronic search gear and rockets, the "Scorpion" has a speed of six hundred miles per hour, plus a range of 2,000 miles, providing day and night protection against atom, or hydrogen bomb attacks. The latest "Scorpion" — the r-86D — is all-rocket — 104 air-to-air missiles heaviest firepower of any U.S. fighter.

Able to climb higher than 40,000 feet, the "Scorpion" is our first line of defense, on top of the world.
