---

**CASE ROLLED AWAY.**

Length: 30 M.

DATE: 26th January 1954.

---

This café stood in the way at the entrance of the Amsterdam wood, and the proprietor had to remove it by order of the authorities. Pulling down and rebuilding the café was too expensive, but a transport-concern was equal to the occasion: by means of a couple of winches and a solid under-carriage the café was rolled away. Thus the coffee-house could begin its ride towards a new stand,  $1\frac{1}{2}$  KM farther.

The proprietor wanted to keep its mobile café running. In fact he couldn't put his clients to the door in this cold weather.

There were even people whipping into the café now and then. In this way the many visitors could make a nice "Café-trip" over a good cup of coffee.

Everybody got every reason to be content.

The café covered the 1500 M<sub>2</sub> in the record-time of 10 minutes and 3.9 seconds!
