

## QUEENSLAND WELCOMES QUEEN & DUKE

By Constellation aircraft from Melbourne the Royal visitors landed at Brisbane to begin a tour of Queensland. The Governor, Sir John Lavarack, with Lady Lavarack, received Her Majesty. A varied programme in this province 32 includes a trip to the Great Barrier Reef. In Brisbane itself the welcomed rivalled that of Melbourne. [ Her Majesty paid a tribute to men of Queensland killed in the two world wars, laying her wreath before the Eternal Flame.

There was a big scale civic reception at the Exhibition Grounds; a fine opportunity for close views.

Selected to present a bouquet was 10 year old Noela Robyn Home, and surely never was the little ceremony so beautifully carried out.... Noela thoroughly deserved the smile of the Queen and the Ducal handshake.
