

BUTTERFLY MASKS ARE NEW FASHION

Girls are beautiful, so are butterflies, so a Paris fashion house thought the combination would be just right for a masked ball; ~~There~~ ^{to change 2 flirts 8 a Red Golden} ^{7 side top} there may be girls who ~~might~~ ^{will} benefit from such adornment, but let's be chivalrous and admit they weren't here.

(NB) Men ^c ~~will~~ ^{by reflecting} console themselves, that, as butterflies only live for one day, the masks are off duty at 12 o'clock, when the night's still young, and the wearers ^{still} full of fun.
