Dr., do you think the mother's all right? Yes, she's in excellent shape, a credit to the pig world, having just had 19 babies. The feeding problem is being met with the aid of several bottles. If their table manners aren't all they might be - well, they're very young. ~~One blessing,~~ *of course a lot of feed*  
~~the mother~~ *thanks heaven mother* doesn't have to buy clothes for them.

30 m. A HAPPY EVENT IN THE MANSE.- 19 SUCKING PIGS ARE BORN.

This is a white day in the manse near Vallremanas! The careful preparation of this surprising quantity of feeding-bottles and this serious gentleman equipped with a phenodescope, who represents and symbolizes the cares and worries of Science, speak of a momentous event.

The bottles ready, they serve to feed 19 piggies born from this over satisfied mamma! The veterinarian zealously watches the breath of his patient. The newly-born have, as can be seen, a good appetite.

This supplementary nursing is required because mother-pig was not prepared to feed so many offsprings. 19 is too great a number!
