Congratulations poured in from Dr. Adenauer's legion of action of friends throughout the Western world.

Positano, a little resort overlooking the gulf of mama. Salerno, was visited by Prime Minister Mendes-France and his wife. The statesman had a few days rest there, but not in the sunshine. Sunny Italy rained. The Premier afterwards went to Rome to discuss with the Italian Government such things as rearming, tariffs and Italian emigration to North Africa. No man better deserved a short holiday. Positano made him very welcome.
