Women Gymnastics championships at Leiden

Length: 46 M

Young women showed during the National Championships for women-gymnastics, held at Leiden, that the Netherlands take a prominent place in women-gymnastics-circles.

These free-exercises, done by Jopie Esseveld-Boelhauer from Bollen were perfect. The young woman ~~gymnast~~ Truus van Barneveld gave a particular performance.

Truus Woord from Schiedam demonstrated exercises on the bridge. She did not participate the championships-matches. Next year the exercises on the bridge will become a part of the matches.

Dini Krul, who was the champion of the Netherlands a 5 times, again was one of the favorites for the title, but she did not get it. She gained the 5th place.

It was the champion of last year who gained the national championship. Here she is at work during the balance-exercises, which are not the strong point of Lenie Lens-Gerrietsen.
