

The American Airforce has found yet another use for  
helicopters. This one carries what they call/<sup>a</sup>"Helicop-  
Hut", which contains a fully equipped Radio relay station.  
Radar  
~~Radar~~ equipment comes next. It's a specially constructed  
set weighing only sixteen hundredweights. In less than  
one hour after landing it can be assembled and working.  
Thanks to the helicopter advanced ~~units~~ units can be  
radar-equipped in quick time.

The tenth annual skating marathon attracted 259 Dutch  
enthusiasts. They had to skate non-stop  
137 miles. When it was light enough to film them  
they'd warmed up, despite the paralyzing six-below-zero  
temperature. They'd started at 5.30 that morning.  
The course passed through eleven towns in the Province  
of Friesland. And ~~what~~ was it freezing.

The last check point, where cosmetics <sup>e</sup> ~~are~~ a frost bite  
protector. The five leaders decided to pass the winning  
post together, after skating a few minutes under nine hours.  
It's a wonderful sport - to see on the pictures.
