

YOUR HAT, MADAME ?

Spring is there and so is the general 'Springtide' .. which, of course, also takes in Hats. Why not ?

There is first of all OrceI's "White Horsemane", which adorns a draped base grey-and-pink muslin,

There is "Glan" - Spring colours on a base of draped cloth,

OrceI also has another treat for you : "Peppy", in red, the ideal headwear for the first walks into the sunshine.

"Bosambo" is made in green, bleu and black - a kind of challenge to the squalls of March,

~~"Blonde Belle" is a large hat suggestive of warm Summer afternoons.~~

XXXXXXXXXX

Rose Valois has some intriguing hats to show, a mass of large camellias in red and white, decorated with a 'cloud' of Malinea muslin, all in bleu, and the "Magician", with spire-shaped top, decorated with violets and hyacinths - hats that really make us poor males turn bound, hold our breath and admire whenever the ladies are passing us by.

YOUR HAT, MADAME !

Spring has come and why should we not see the new Hats again ?

In Orceol's "WHITE HORSETAIL",

"CLAN", drape in Spring colours,

"FLANDERS POPPY",

"BOZAMBO", in green,

~~"Blonde Felle"~~

~~"REFRIGERING"~~

"MAGICIAN".

... all of which are calculated to make us poor males turn our heads
whenever the ladies pass us by ...

CHAPEAUX, MADAME : . . .

Le printemps et son renouveau, pourquoi ne les reverrions-nous pas dans les chapeaux ? Dans "crin blanc" d'Orcel, qu'orne un drapé de mousseline grise et rose, ou "clan", drapé de tissu aux couleurs printannières . . . Orcel propose encore "coquelicot", en para rouge, tout indiqué pour les premières promenades . . . et "Bozambo" un autre para vert, bleu et noir, qui semble défier les giboulées de mars. "Tulle blond", enfin, est une large capeline, de ton dégradé blond qui fait déjà penser aux chaudes après-midi d'été . . . Quant à Rose Valois, ses nouvelles créations "intrigante" : pouf de gros camélias, rouge et blanc, assorti d'un nuage de tulle malines bleu, et "Magicien", cloche jaune à fond pointu, garni de violettes, de primevères et de jacinthes, doivent certainement nous faire, à nous "pauvres hommes", tourner la tête !
