	<p>Attached is the official handout's & dope...Pathe have already had this dope, sent to them..</p> <p>The arrangements for newsreels, going up to Newcastle, on the official train, as assigned, verged on the impossible.. We, i.e., Gaumont & ourselves, arrived at the launching, just a few minutes ahead of Lady Eden...a stand allocated to us, was so crowded, that tripods, could NOT be used. There was not time even to look around for an alternate position, before the ship was launched..it was impossible to get any other material, and I had two camera's, hoping to get general views...</p> <p>A short service was conducted by the vicar of Walker.. and then Lady Eden, did the official launching etc.. This ship is for the C.P.R. company..</p> <p><i>B.B.C. Television, I.T.N., C.B.S. & Movietone got other material, having gone there the previous night..</i></p>
	<p>WHICH OTHER SOUND NEWS REELS COVERED STORY</p> <p>.. .. SILENT</p>
