

## POWER DELEGATES VISIT MOSCOW AND LENINGRAD

20 The Moscow Power Institute welcomed Lord Citrine and his colleagues, ~~whom~~ towards the end of their stay in Russia. The high tension laboratory and other technical apparatus was ~~examined~~ being examined with interest when the delegates were joined by Mr. Malenkov, the USSR Minister For Power Stations.

Leningrad, one-time capital of Russia, was the next city on the programme. The highlight here was perhaps the great Electrosila Plant. The Director, who conducted Lord Citrine and his party, told them the ~~great~~ factory was building ~~hydro-~~turbines for the ~~various~~ various hydro-electric stations, <sup>now</sup> being constructed in several parts of Russia.
