General Gard, USA, said the danger of Far East war was *now*

very slight. Military patrol of the two-and-a-half-mile deep Demilitarized zone ~~maintained~~ has been maintained since the Korean war ended. Vigilant watch would have made it impossible for Red troops north of the zone to prepare for action unobserved. The United Nations say that the Chinese ~~have~~ have brought from four-to-five-hundred aircraft into North Korea, contrary to the armistice agreement.
